DETAILED ACTION

1. Applicant's communication filed on March 23, 2005 has been carefully studied by the Examiner. The arguments advanced therein, considered together with the amendments made to the claims, are persuasive and the rejections based upon prior art made of record in the previous Office Action are withdrawn. Claims 1-4, 12 and 16 have been amended. Claim 15 has been canceled. Claim 17 has been added. Claims 1-9, 12, 16 and 17 are pending.

Allowable Subject Matter

2. Claims 1-9, 12, 16 and 17 are allowed.

3. The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record for the reasons stated on pages 15-21 of Applicant's response. In particular, Ibukuro et al. does not disclose or render obvious the control circuit or method to set the routes according to the claimed different routes as set forth in the independent claims. As noted by the Applicant's, the split signals of Ibukuro et al. are directed to the same transmission route (e.g. the same transponder) and therefore do not meet the claimed limitations for the different transmission routes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
